Round 127,659 to the nearest thousands

Let's first of all identify the place value that the number will be rounded to.

1 2 7 6 5 9 we will round to the thousand place which is the digit 7

Now, since the number to the right of the rounding number is greater than 5, we will round up the rounding number and replace the rest of the numbers to the right with zeros.

$$127659 = 128\ 000$$

So, 127,659 to the nearest thousand = 128,000.
